Atego Rigid range.

Mercedes-Benz
Trucks you can trust

The Mercedes-Benz Atego Rigid range.

The Mercedes-Benz Atego Rigid range impresses not only with a comfortable driver workplace, but also with precisely coordinated, job-matched vehicle configurations, impressive fuel savings compared with its predecessor, efficient technology and attractive service offers which increases the overall effectiveness further still.

Reliability. Operators who earn their money in road-bound goods transport need reliability. In other words: trucks they can count on. With the Atego Rigid range we are able to offer you a vehicle incorporating the rich fund of experience and expertise acquired over more than 100 years of German engineering. Equipped with leading Mercedes-Benz vehicle technology and components tested under the toughest conditions. This applies to engines, gearshifts, transmissions and drive axles as well as frames, chassis, suspension and cabs. Everything is perfectly coordinated, in order to meet all requirements reliably, even in extreme conditions.

Efficiency. Mercedes-Benz trucks stand for particularly high economic efficiency worldwide. The Atego Rigid range also meets the highest standards of efficiency, based first and foremost on its particularly low fuel consumption. Low wear and a higher resale value are additional merits contributing to its high overall economic efficiency. Numerous innovative technical measures were implemented in the course of developing these vehicles, resulting in higher performance engines with lower fuel consumption, a powertrain which enables a particularly economical driving style, and an aerodynamic design honed down to the finest details in the interest of fuel efficiency.

Versatility. Distribution transportation has its very own set of rules. This is why we have created the Atego Rigid range, for distribution transportation from 12 to 16 t, to ensure that you are ideally placed to meet the challenges facing this sector. Our Atego Rigid range of models mean you have the perfect vehicle to meet the demands associated with distribution transport, general freight and other high volume transport requirements.

ClassicSpace S-cab, or S-cab Extended, 2.30 m tunnel.

The comfortable 2300 mm-wide cab offers the driver an ergonomic, comfortable workplace and is ideally designed to meet the requirements of local distribution.

ClassicSpace L-cab, 2.30 m, tunnel.

The comfortable 2300 mm-wide cab offers the driver an ergonomic, comfortable workplace and is ideally designed for distribution transport while offering the feature of a bunk or a bench seat for 4 additional passengers.

Consumption. The economical Euro VI engines are available in two displacement classes 5.1 l and 7.7 l with a total of 3 power output ratings from 170 kW (231 hp) to 220 kW (299 hp). In conjunction with the precisely tuned power-train configurations and the sophisticated aerodynamics, the Euro VI Mercedes-Benz engine achieves significant fuel savings compared with predecessor models.

Equipment Highlights.

Powertrain. Mercedes PowerShift 3 provides fast shifting from forward to reverse and high-ratio reverse gears for easy manoeuvring. Moving off is noticeably more comfortable thanks to the crawl function.

Rear axle guide. The innovative rear axle guide also plays a decisive role in the excellent handling: compared with a conventional wishbone, the connection points of the two trailing arms are positioned further towards the outside. This results in the best possible transverse stability, little need for corrective steering and very good understeer/oversteer characteristics.

Tank capacity. Atego Rigid range models are equipped with a tank capacity of 325 litres. They can be optioned with a second 325 litre tank. This makes for a long operating range and saves money by avoiding the need to retro-fit add-on tanks.

Suspension components. All the suspension elements in the Atego Rigid range are precisely tuned to one another: from the seats to the cab mountings to the air suspension at the rear axle – the overall result is a high degree of suspension comfort for the workplace and a ride which helps protect both the vehicle and its cargo.

Easy body-mounting capabilities. Features contributing to the high body-mounting ability include the parameterisable special module, which simplifies connection options, integration and operation of the body substantially. A host of measures additionally help to ensure that the Atego Rigid range is delivered to you sooner and up and running more quickly – from the optimised layout of all components on the frame to numerous factory-fitted pre-installations.

Total Cost of Ownership.

Agility. The Mercedes-Benz Financial Agility Programme offers you a guaranteed buy back amount across the Atego Rigid range, giving you additional peace of mind, assurance and support from the Mercedes-Benz brand.

Agility is a finance solution that lets you take advantage of flexible terms, competitive rates and best of all, the Agility guaranteed buy back means when your agreement comes to an end, you have the option to trade, retain or return your Atego Rigid for the guaranteed buy back amount, subject to fair wear and tear conditions being met.

Protecting your investment in a new Atego Rigid has never been easier.*

Star Driver. The Mercedes-Benz Star Driver Program is a locally developed initiative which allows you to take full advantage of your vehicle's outstanding capabilities. When you purchase your new Mercedes-Benz Truck, you will have access to the program, providing you with one-on-one sessions designed to give you a full understanding of your vehicle's true capabilities, and how you can maximise its efficiency, safety and performance.

Maintenance. The information displayed in the cockpit provides you with advance warning when your vehicle's next maintenance visit is due. This is determined on the basis of the continuous evaluation of data about the actual workload of the vehicle: for example, every single cold start, the degree of brake pad wear, the condition of the engine oil and all major assembly oils. In this way, maintenance can be planned anticipatively and can be combined with statutory inspections, for example. This avoids additional downtime.

Mercedes-Benz Service Plans. From warranty extensions to maintenance packages to a comprehensive service package including wear items – the Mercedes-Benz graduated range of Service Plans offers flexible repair and maintenance products which are geared to your requirements and which allow you to plan monthly costs and make optimal use of your fleet's capacity.

*Agility Finance is restricted to approved customers of Mercedes-Benz Financial Services Australia Pty Ltd ABN 73 074 134 517 and is subject to standard credit assessment and lending criteria. Please contact an authorised Mercedes-Benz dealer for further details and full terms and conditions (including vehicle eligibility). Guaranteed Future Value (GFV) is subject to Fair Wear and Tear return conditions and Excess Kilometre charges.

(exterior width 2300 mm, engine tunnel)

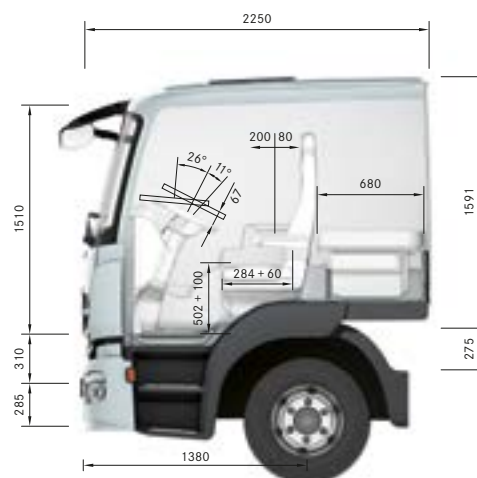

Headroom in front of seats: 1510 mm

ClassicSpace L-cab
(exterior width 2300mm, engine tunnel)

Headroom in front of seats: 1510 mm

BigSpace L-cab
(exterior width 2300 mm, engine tunnel)

Headroom in front of seats: 1510 mm

Advantages at a glance.

Drive Train:

- Mercedes-Benz OM 934 5.1 litre engine and OM936 7.7 litre engine options
- Fully automated 6 and 8 speed Mercedes-Benz PowerShift 3 transmission
- Fuel efficient single reduction axles
- Electronic Braking System incorporating Stability Control Assist, Hill Hold Assist and Traction Control

Cab:

- Extended cabs for day to day operation
- Sleeper cabs for additional comfort
- High roof sleeper cab with bench seat for up to 6 occupants
- Double zinc coated and cathodic dip priming for optimal corrosion protection
- Ergonomic cabs designed with the driver's needs in mind
- Aerodynamically tested and designed for optimal efficiency on the road

Value Add Services:

- 4 year, 500,000 km driveline warranty
- 2 year, unlimited km bumper to bumper warranty
- 2 year, 250,000 complimentary BestBasic Service Plan[~]
